

Brampton Forklift Training Courses

Brampton Forklift Training Courses - Our forklift operator safety training has been tailored for illiteracy, thus cutting the training time in half. We offer lift-truck operator driver safety training evaluation, train the trainer and forklift training certification courses provide regulation-compliant, thorough training in industrial-powered fork truck safety and utilization. Lift truck pedestrian safety is likewise offered.

We have a highly competent group of professional trainers to be able to make sure that your workers are trained well. The certification is delivered on site by one of our certified instructors. Trainees would learn how to identify hazards and carry out safety checks necessary for the safe and effective operation of a powered industrial lift truck.

Forklift Training Guidelines

It is vital that all workplaces using forklifts have the following checklist or one equivalent on the premises. If all of the safety regulations are being followed, each of these questions must be answered with a "yes". A "no" to whichever question indicates a procedural flaw that can lead to injury, damage to machinery or accident.

- 1) Is the traffic of the pedestrians separate from the operating area of the forklift?
- 2) Is access by pedestrians to forklift areas restricted by a barrier?
- 3) The walkways for pedestrians are well-marked?
- 4) Are "forklift in operation" signs clearly visible?
- 5) Are mirrors for drivers and pedestrians provided at blind spots?
- 6) Changes or alterations to the daily lift truck schedule has been communicated to workers?
- 7) The lift truck tires being utilized are suitable for all operating surfaces?
- 8) Forklift seatbelt is being utilized?
- 9) The forklift seat is in good condition?
- 10) Is a regular forklift maintenance schedule adhered to?
- 11) Are annual inspections of the forklift being carried out?
- 12) Is the forklift right for the needed job?
- 13) Is there a readable load chart on the forklift?
- 14) Do all operators know how to read the load chart?
- 15) Does the chart list the safe capacity for different uses and attachments?
- 16) Are the warning devices on the forklift working correctly?
- 17) Is the operating speed control device fitted right?
- 18) Is overhead cage fitted right on the lift truck?
- 19) Do the operators of the lift truck have certifications to use the machinery?
- 20) Speed limits and warning signs are being observed?
- 21) The operators have current training for the forklifts being used?
- 22) Forklift operators understand their responsibilities to report the damage to the equipment and other forklift accidents?
- 23) Prior to the equipment being utilized, the pre-test checklist is being reviewed daily?
